

VISUAL ONLINE SUPPORT

Innovative FOOKE-Service
 free from travel costs and waiting time.

Save valuable time and money with our service-innovation: From now on FOOKE-Service is with you at all times without any travel costs. Our new innovative Smart Glasses are all that you need: Our service specialists can carry out a visual inspection of the situation on-site, enabled by an employee at your firm wearing the Smart Glasses. The Hologram- and Internet-of-Things-Technology (IoT) allows for a comfortable real-time exchange. In this way our service specialists can provide you with various solutions directly at your machine, allowing you to profit from the shortest possible repair time. What's more with our Smart Glasses, upon request you can also take part in virtual FOOKE training courses and tutorials using the integrated glasses-display.

PRICES:

Smart Glasses	2.500,- Euro
Yearly handling charges including software-updates, tutorials and data protection etc.	500,- Euro

Billing according to sessions.
